

## SEVERE WEATHER BULLETIN #23 FOR: TYPHOON "ULYSSES" (VAMCO) TROPICAL CYCLONE: WARNING

ISSUED AT 5:00 PM, 12 November 2020

(Valid for broadcast until the next bulletin to be issued at 11 PM today)

**TYPHOON "ULYSSES" SLIGHTLY WEAKENS AS IT CONTINUES TO MOVE WESTWARD OVER THE WEST PHILIPPINE SEA.**

### Hazards affecting land areas:

- **Strong winds:** Strong breeze to near gale conditions may prevail in areas under TCWS #1 while the surge of the Northeast Monsoon will bring strong breeze to gale-force winds over Northern Luzon.
- **Heavy rainfall: Until tonight, moderate to heavy rains** over Cordillera Administrative Region, the eastern portions of Cagayan and Isabela, Zambales, Bataan, Aurora, Cavite, the western portion of Batangas, and Occidental Mindoro including Lubang Island. **Light to moderate with at times heavy rains** over Western Visayas, Samar Provinces, Metro Manila, and the rest of Luzon. **Flooding (including flashfloods), rain-induced landslides, and sediment-laden streamflows (i.e. lahar) may occur during heavy or prolonged rainfall especially in areas that are highly or very highly susceptible to these hazards and/or those that received significant antecedent rainfall.** PAGASA Regional Services Divisions may issue local thunderstorm/rainfall advisories and heavy rainfall warnings while the Hydrometeorology Division and River Basin Flood Forecasting and Warning Centers may issue General Flood Advisories and Basin Flood Bulletins as appropriate.

### Hazards affecting coastal waters:

- Within the next 24 hours, the combined effects of Typhoon "ULYSSES" and the surge of the Northeast Monsoon will bring rough to very rough seas (2.5 to 6.0 m) over the seaboard of areas under TCWS, Northern Luzon, and Occidental Mindoro and the western seaboard of Batangas and Palawan including Calamian and Kalayaan Islands Sea travel is risky for all types of vessels over these waters.
- Moderate to rough seas (1.5 to 2.5 m) will be experienced over the eastern seaboard of Central and Southern Luzon, Visayas, and Mindanao, the seaboard of Cuyo Islands, and the western seaboard of Panay Island. Mariners of small seacrafts are advised to take precautionary measures when venturing out to sea. Inexperienced mariners should avoid navigating in these conditions

### Track and intensity outlook:

- On the forecast track, "ULYSSES" may exit the Philippine Area of Responsibility tomorrow morning. "ULYSSES" slightly weakened at 2:00 PM today. However, as it moves over the West Philippine, slight intensification remains likely.
